Summary

Junior Frontend Developer with hands-on experience building responsive, high-performance web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Proven ability to deliver full-stack MERN projects in freelance and professional internship settings. Experienced in REST API integration, state management with Redux and Zustand, and agile team collaboration. Passionate about clean code, component-based architecture, and continuous learning — always seeking to bridge the gap between functional and exceptional user experiences.
